

# ADJUSTABLE UNIVERSAL FILE BARS

Installation Instructions for adjustable universal file bars with flush mount clips.

**Step 1 :** Mount the flush mount clips to left and right sides of drawer. Note some drawers will require a bar to be mounted in the front and rear of the drawer.

**Step 2 :** Insert one of the self threading set screws into adjustable bar. Do not tighten all the way.

**Step 3 :** Extend the adjustable universal file bar to desired length in the mounted clips. Mark the location where the two bars meet.

**Step 4 :** Remove the adjustable universal file bar and tighten the set screw with the bar at desired length.

**Step 5 :** Reinsert the adjustable universal file bar and ready for use.
